

Here's how you can add our employee onboarding and offboarding add-in and start with a trial period:

1. log in to your office 365 SharePoint user or use the URL mentioned here:

<https://domainname.sharepoint.com/>

2. Go to "Site contents" from the quick launch or go to the gear icon and click on the "Site contents" tab available in the dropdown.

3. In the 'Site contents' click on 'New' and 'App' Or if you are using Classic SharePoint then Go to "add an app".

4. Go to the SharePoint store.

The screenshot displays the SharePoint 'Your Apps' interface. At the top, the 'SharePoint' logo is visible on the left, and user information 'Developer Bhupendra' and 'EDIT LINKS' are on the right. Below the header, the page title is 'Site contents > Your Apps'. A search bar labeled 'Find an app' is positioned above the main content area. On the left sidebar, there are navigation options: 'Your Apps', 'Apps You Can Add' (which is highlighted with a red box), 'From Your Organization', 'Manage Licenses', 'Your Requests', and 'SharePoint Store' (also highlighted with a red box). The main content area is divided into two sections: 'Noteworthy' and 'Apps you can add'. The 'Noteworthy' section features four tiles: 'Document Library', 'Custom List', 'Tasks', and 'Site Mailbox', all labeled as 'Popular built-in app'. The 'Apps you can add' section is organized into a grid with columns for 'Newest' and 'Name'. It contains eight tiles for external applications: 'Employee Onboarding Tool', 'Metro Tiles', 'Employee Spotlight', 'Birthday Reminder', 'Bid Management System', 'Employee Directory', 'Knowledge Management', and 'Multiple RSS Viewer'. Each tile includes an icon, the app name, and the provider 'from Beyond Technologies' or 'from BEYOND KEY SYSTEMS', along with an 'App Details' link.

5. Search for the “Employee Onboarding Tool” version of the app on the store. Here’s the URL of it, on store- <https://appsourc.microsoft.com/en-us/product/office/WA104380922>
