About this Document

Purpose

This guide has been written to help you understand and use the Bid Management System, a SharePoint add-in. It presents the functional capabilities and operational details of a Bid Management Solution for bidders, evaluators and users and contains the procedures that you should know for performing your business tasks using the add-in.

Intended Audience

This guide is intended for all the users of the add-in on SharePoint who are seeking to capture, share and search key information of the company’s various departments or projects on a single platform.

Products Supported

- SharePoint Online

This user guide is relevant in all manner to explain and elaborate the functionalities which are available on our 7 days Trial & Enterprise version of the SharePoint Bid Management System.

1. Introduction

Electronic Bidding management System will facilitate the old bidding processes through electronic means basically by using online forms through internet. Electronic Bidding management System is a important process of any business that helps that corporation to search a reliable and affordable contractor according to its need.

What does a simple Bidding management system do? It manages:

- The information content of a bidding being issued.
- The administration process of both issuance of bids and receiving of bids.
- The content, structure and production of the bid submission and time and resource management for the bidder.
- The record keeping and audit trail of changes.
- A repository of all documentation.
- Reduce maintenance cost of data.
- Improve accuracy and efficiency of calculations.

- Flexibility of transactions can be completed in time.
- Provide proper and accurate information.
- Improve data security.

1.1. Benefits

- The sourcing professional is often under pressure for time, so it is important that the administrative tasks are streamlined and minimized. Securely managed biddings can be issued to selected bidders' error free and on time
- Master templates can be available for all types of sourcing activities to cut down on drafting times
- A full audit trail of change and updates, questions and actions are kept
- Biddings can be sent out and received electronically via an on-line portal with or without attachments.
- Costs are reduced in the preparation and the distribution of the documents and the responses
- Reduced likelihood of poor submissions and costly delays due to suppliers not being in possession of the latest versions and updates
- Security and limited access via passwords

2. Getting Started

Access to Bid Management System is limited to authorized users only. To use it, you must first log on to Microsoft account using your user ID and password. On logging in, it allows you to start any of the modules to which you have access rights.

2.1 Installation of Bid Management System

Before you start to understand the functional aspects of Bid Management Add-In, let us understand the steps for installing it from the Office 365 SharePoint store as follows:

1. Login to your office 365 SharePoint user or use URL mentioned below: <https://.sharepoint.com/>
2. Go to "Site contents" from the quick launch or go to the gear icon and click on "Site contents" tab available in the dropdown.

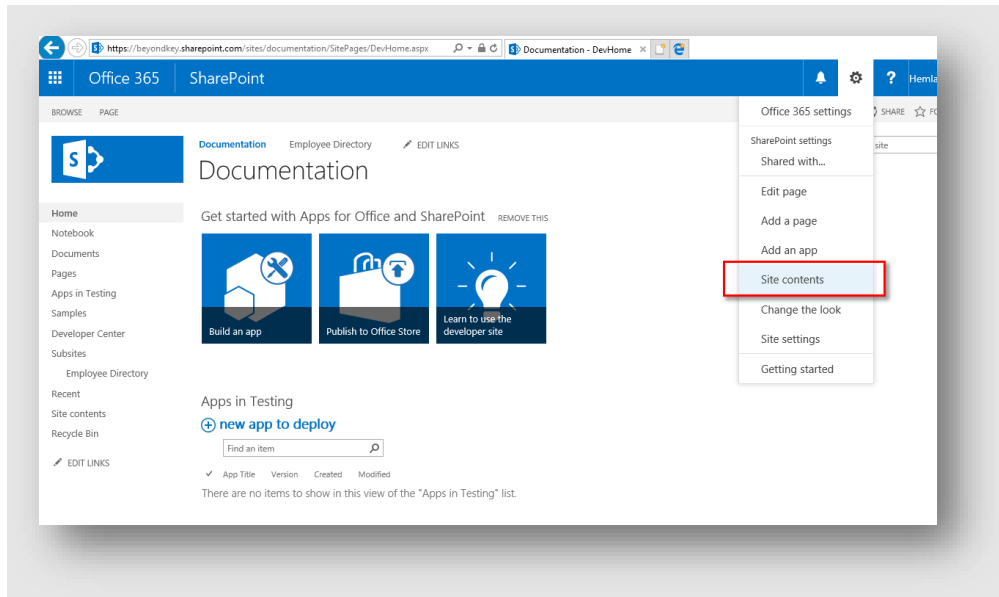

Figure 1: Installation process – Bid Management System

- a. In the '**Site contents**' click on '**New**' and '**App**'. Or if you are using **Classic SharePoint** then Go to "**add an app**".

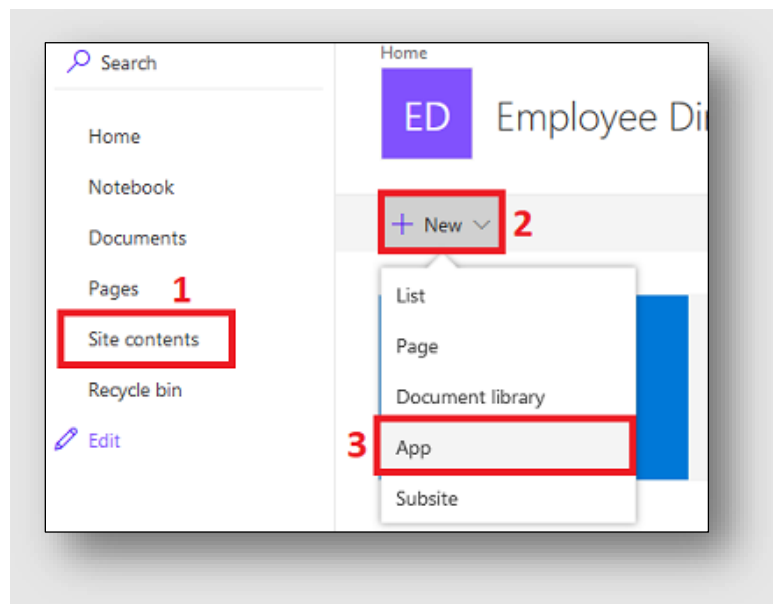

Figure 2: Site Contents page

- b. Go to the **SharePoint store**.

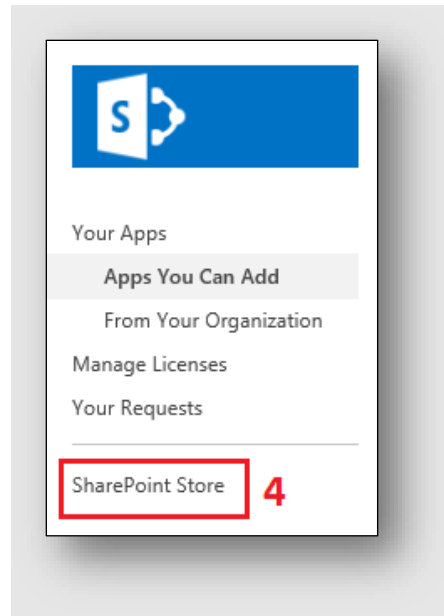

Figure 3: SharePoint Store

- c. Search for “Bid Management System” version of the app on the store.
- d. Click on the ADD IT button and Trust the add-in.

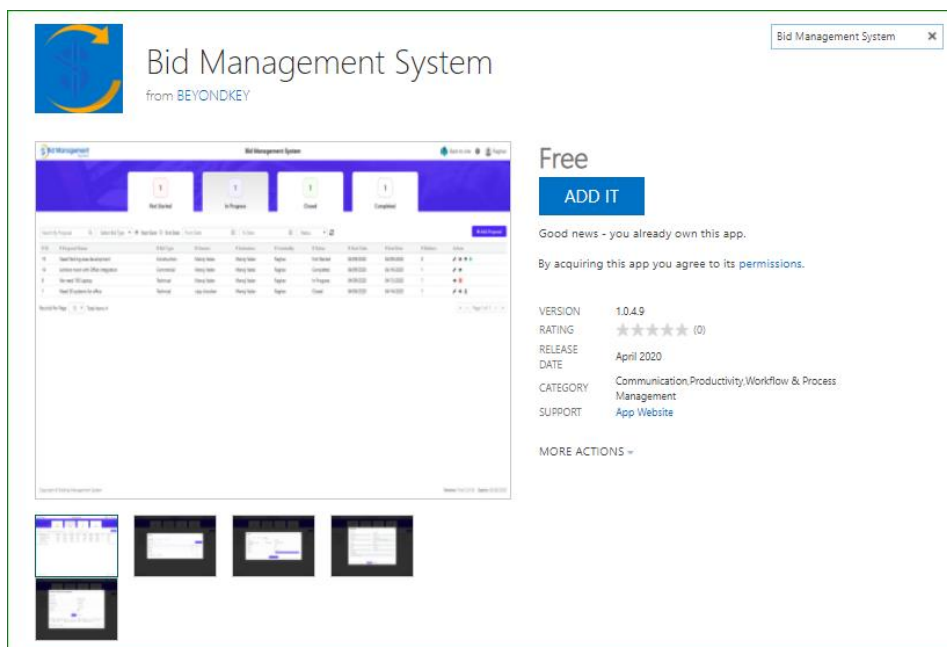

Figure 4: App Source page

- e. Once its Install on your computer you can use this.

3. Configuration

To use Bid Management System, you need to first enable the external sharing on SharePoint site as well as on SharePoint tenant.

4. Download Trial

*To download the Trial Version of the add-in, you can visit the Microsoft AppSource by clicking [here](#).

*Using the Trial version, you can enjoy full capabilities and features of the Bid Management System which you can avail for 7 days. After that, you will be required to upgrade to the Paid version. Need assistance in downloading the add-in? Contact Beyond Intranet Support by clicking [here](#).

5. Purchase/custom-built add-in

*To purchase the paid version, custom Bid Management Solution contact our M365 product expert by clicking [here](#).

6. Master Settings

To access the Master Settings, click the top right corner with settings icon as indicated in the image below:

Once you click the settings icon, the Masters Table will appear which needs to be filled. Please follow the following points to know how to fill the Masters Data.

4.1 Bid Types

4.1.1 Add Bid Types

To add a Bid Type:

- Click the “Add Bid Type” button and fill the “Bid Type Title”

Settings ×

Bid Types Bidders Bid Status Personalize

Bid Type Title*
Financial

13. Help Instruction and Contact Us

Refer Help Instruction page and contact us for support. Users can easily reach our crisp Help Instruction page from the tiles available on the home page. The short help instructions guide provides you with quick insights about how processes are performed in this add-in and this can be of great help for beginners.

After referring to the help instruction page or this user guide, if you are stuck on any of the processes, our Contact us tile can easily navigate you to connect with us. We encourage you to connect with us with any kind of questions or suggestions you have, and we'd love to listen and respond to them.

Happy Bidding! Thank you!
