Important Instructions!

To be able to share the proposal related documents with the corresponding bidders, you must enable the external sharing in your SharePoint tenant as well as on the SharePoint site where you are going to use Bid Management Systems.

Furthermore, you also need to setup the MS Flow to automate the e-mail sending process.

Please follow these steps and zoom the file to access the image comtent:

- 1. Download the MS Power Automate package from: Bid Action Flow Package
- 2. Go to the SharePoint site where Bid Management System is installed.
- 3. Click the App Launcher icon of Office 365.
- 4. Click on the Power Automate.
- 5. Click on the My Flows followed by Import as highlighted below:
